Clean and Optimized Inventory Position Ahead of Fiscal Year 2025

Fiscal Third Quarter 2024 Highlights

- Revenue decreased 9% to \$542 million
- Same-store sales decreased 8% for the quarter
- Gross profit margin of 24.4%
- GAAP net income of \$17 million, or \$0.99 per diluted share and adjusted diluted earnings per share of \$1.05
- Adjusted EBITDA¹ was \$39 million

BUFORD, Ga., July 30, 2024 (GLOBE NEWSWIRE) -- OneWater Marine Inc. (NASDAQ: ONEW) ("OneWater" or the "Company") today announced results for its fiscal third quarter ended June 30, 2024.

"In the third quarter, our strategic inventory management and operational execution drove outperformance against the industry. However, our performance for the quarter was below our expectations due to a progressively weaker market environment and a negative impact from weather in Texas," commented Austin Singleton, Chief Executive Officer at OneWater. "As we look to the balance of the fiscal year, we remain cautiously optimistic. We are focused on proactively managing inventory and expenses, which should provide some tailwinds as we navigate into fiscal 2025."

Fiscal Third Quarter 2024 Results

Revenue for fiscal third quarter 2024 was \$542.4 million, a decrease of 8.7% compared to \$594.3 million in fiscal third quarter 2023. Same-store sales decreased 8%. New boat revenue decreased 10.4% and pre-owned boat revenue decreased 4.1%, driven by a decrease in units sold and average price per new unit. Excluding our Texas locations which were impacted by adverse weather, same-store unit sales were only down 1.9% for the fiscal third quarter. Finance & insurance income increased slightly as a percentage of total boat sales. Service, parts & other sales were down 8.4% compared to the prior year quarter. Excluding the impact from the dispositions that occurred in the fourth quarter of 2023, dealership segment service, parts and other sales were positive. Distribution segment service, parts, and other sales were lower due to reduced production by boat manufacturers.

Gross profit totaled \$132.6 million for fiscal third quarter 2024, down \$26.8 million from \$159.4 million for fiscal third quarter 2023. Gross profit margin of 24.4% decreased 240 basis points compared to the prior year period, driven by the normalization of new and pre-owned boat pricing and lower revenue from higher margin businesses. Sequentially, gross profit margin decreased 20 basis points as the industry continues to stabilize.

Fiscal third quarter 2024 selling, general and administrative expenses totaled \$87.1 million, or 16.0% of revenue, compared to \$92.8 million, or 15.6% of revenue, in fiscal third quarter 2023. The increase in selling, general and administrative expenses as a percentage of revenue was driven by lower revenues. On a dollar basis, selling, general and administrative expenses declined 6.2% due to previous cost reduction actions, ongoing expense management, and lower personnel costs.

Net income for fiscal third quarter 2024 totaled \$16.7 million, compared to net income of \$33.3 million in fiscal third quarter 2023. The Company reported net income per diluted share for fiscal third quarter 2024 of \$0.99, compared to net income per diluted share of \$1.95 in 2023. Adjusted diluted earnings per share¹ for fiscal third quarter 2024 was \$1.05, compared to adjusted diluted earnings per share¹ of \$2.15 in 2023.

Fiscal third quarter 2024 Adjusted EBITDA¹ decreased 36.6% to \$39.2 million compared to \$61.9 million for fiscal third quarter 2023.

As of June 30, 2024, the Company's cash and cash equivalents balance was \$41.0 million and total liquidity, including cash and availability under credit facilities, was in excess of \$60.0 million. Total inventory as of June 30, 2024, decreased to \$598.6 million, compared to \$687.5 million on March 31, 2024. Despite lower-than-expected revenues, inventory decreased 13% sequentially due to the continued focus on matching inventory levels with market demand.

Total long-term debt as of June 30, 2024 was \$426.2 million, and adjusted long-term net debt (net of \$41.0 million cash)¹ was 3.7 times trailing twelve-month Adjusted EBITDA¹.

Fiscal Year 2024 Guidance

The Company is updating its previously issued fiscal full year 2024 outlook. For fiscal full year 2024, OneWater anticipates dealership same-store sales to be down mid-single digits. Adjusted EBITDA² is expected to be in the range of \$90 million to \$100 million and adjusted earnings per diluted share² is expected to be in the range of \$1.50 to \$2.00.

Non-GAAP Financial Measures and Key Performance Indicators

This press release and our related earnings call contain certain non-GAAP financial measures, including Adjusted EBITDA, Adjusted Net Income Attributable to OneWater Marine Inc., Adjusted Diluted Earnings Per Share and Adjusted Long-Term Net Debt, as measures of our operating performance. Management believes these measures may be useful in performing meaningful comparisons of past and present operating results, to understand the performance of the Company's ongoing operations and how management views the business. Reconciliations of reported GAAP measures to adjusted non-GAAP measures are included in the financial schedules contained in this press release. These measures, however, should not be construed as an alternative to any other measure of performance determined in accordance with GAAP. Because our non-GAAP financial measures may be defined differently by other companies, our definition of these non-GAAP financial measures may not be comparable to similarly titled measures of other companies, thereby diminishing its utility. We have not reconciled non-GAAP forward-looking measures, including Adjusted

EBITDA and adjusted earnings per diluted share guidance, to their corresponding GAAP measures due to the high variability and difficulty in making accurate forecasts and projections, particularly with respect to change in fair value of contingent consideration and transaction costs. Change in fair value of contingent consideration and transaction costs are affected by the acquisition, integration and post-acquisition performance of our acquirees which is difficult to predict and subject to change. Accordingly, reconciliations of forward-looking Adjusted EBITDA and adjusted earnings per diluted share are not available without unreasonable effort.

Adjusted EBITDA

We define Adjusted EBITDA as net income (loss) before interest expense – other, income tax (benefit) expense, depreciation and amortization and other (income) expense, further adjusted to eliminate the effects of items such as the change in fair value of contingent consideration, gain (loss) on extinguishment of debt, restructuring and impairment, stock-based compensation and transaction costs. See reconciliation above.

Our board of directors, management team and lenders use Adjusted EBITDA to assess our financial performance because it allows them to compare our operating performance on a consistent basis across periods by removing the effects of our capital structure (such as varying levels of interest expense), asset base (such as depreciation and amortization) and other items (such as the change in fair value of contingent consideration, gain or loss on extinguishment of debt, income tax (benefit) expense, restructuring and impairment, stock-based compensation and transaction costs) that impact the comparability of financial results from period to period. We present Adjusted EBITDA because we believe it provides useful information regarding the factors and trends affecting our business in addition to measures calculated under GAAP. Adjusted EBITDA is not a financial measure presented in accordance with GAAP. We believe that the presentation of this non-GAAP financial measure will provide useful information to investors and analysts in assessing our financial performance and results of operations across reporting periods by excluding items we do not believe are indicative of our core operating performance.

Adjusted Net Income Attributable to OneWater Marine Inc. and Adjusted Diluted Earnings Per Share

We define Adjusted Net Income Attributable to OneWater Marine Inc. as Net Income Attributable to OneWater Marine Inc. before transaction costs, intangible amortization, change in fair value of contingent consideration, restructuring and impairment and other expense (income), all of which are then adjusted for an allocation to the non-controlling interest of OneWater Marine Holdings, LLC. Each of these adjustments are subsequently adjusted for income tax at an estimated effective tax rate. Management also reports Adjusted Diluted Earnings Per Share which presents all of the adjustments to net income attributable to OneWater Marine Inc. noted above on a per share basis. See reconciliation above.

Our board of directors, management team and lenders use Adjusted Net Income Attributable to OneWater Marine Inc. and Adjusted Diluted Earnings Per Share to assess our financial performance because it allows them to compare our operating performance on a consistent basis across periods by removing the effects of unusual or one time charges and other items (such as the change in fair value of contingent consideration, intangible amortization, restructuring and impairment, transaction costs and other expense (income)) that impact the comparability of financial results from period to period. We present these metrics because we believe they provide useful information regarding the factors and trends affecting our business in addition to measures calculated under GAAP. Adjusted Net Income Attributable to OneWater Marine Inc. and Adjusted Diluted Earnings Per Share are not financial measures presented in accordance with GAAP. We believe that the presentation of these non-GAAP financial measures will provide useful information to investors and analysts in assessing our financial performance and results of operations across reporting periods by excluding items we do not believe are indicative of our core operating performance.

Adjusted Long-Term Net Debt

We define Adjusted Long-Term Net Debt as long-term debt (including current portion) less cash. We consider, and we believe certain investors and analysts consider, adjusted long-term net debt, as well as adjusted long-term net debt divided by trailing twelve-month Adjusted EBITDA, to be an indicator of our financial leverage.

Same-Store Sales

We define same-store sales as sales from our Dealership segment, excluding new and acquired stores. New and acquired stores become eligible for inclusion in the comparable store base at the end of the store's thirteenth month of operations under our ownership and revenues are only included for identical months in the same-store base periods. Stores relocated within an existing market remain in the comparable store base for all periods. Additionally, amounts related to closed or sold stores are excluded from each comparative base period. We use same-store sales to assess the organic growth of our Dealership segment revenue. We believe that our assessment on a same-store basis represents an important indicator of comparative financial results and provides relevant information to assess our performance.

Cautionary Statement Concerning Forward-Looking Statements

This press release and statements made during the above referenced conference call may contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including regarding our strategy, future operations, financial position, prospects, plans and objectives of management, growth rate and its expectations regarding future revenue, operating income or loss or earnings or loss per share.
